

**TECHNICAL AMENDMENTS TO THE SPECIFICATION:****IN THE SPECIFICATION:**

Please amend p. 7, lines 4-10 of the specification as indicated hereinbelow:

According to a more preferred embodiment of the invention, the heliomicine is the peptide ~~represented with its coding sequence~~ encoded by the ~~sequence identifier No. 2~~ (SEQ ID NO:2). The same peptide sequence is ~~described, corresponding to~~ found in amino acids 6 to 49 of the peptide encoded by sequence identifier No. 1 (SEQ ID NO:1) ~~with a different coding sequence.~~
